INDEX TO VOLUME 47

ARTICLES AND SPECIAL FEATURES

A Limited Conventionalist Critique of Newtonian Space-Time, DAVID ZARET 474
A Pragmatic Approach to Explanations, PETER GARDENFORS 404
A Probabilistic Theory of Extensive Measurement, JEAN-CLAUDE FALMAGNE 277
Between Science and Technology, JOSEPH AGASSI 82
Discussion: A Trivialization of Nagel's Definition of Explanation for Statistical Laws, ROGER COOKE 644
Discussion: Comment on "Health as a Theoretical Concept", MARTIN BUNZL 116
Discussion: Determinism and Predictability: Reply to Dieks, A. KUKLA 131
Discussion: Field and Jeffrey Conditionalization, DANIEL GARBER . . 142
Discussion: Four Types of Explanation, BRIAN CUPPLES 626
Discussion: How to Reduce a Functional Psychology?, PATRICIA KITCHER 134
Discussion: Hypothetico-Deductivism is Hopeless (see "corrections" p. 503), CLARK GLYMOUR 322
Discussion: Jackson and Pargetter on Distant Simultaneity, BURKE TOWNSEND 646
Discussion: Minogue on Intensional Reference, MARY HESSE 617
Discussion: Nicod's Criterion: Subtler Than You Think, WILLIAM W. ROZEBOOM 638
Discussion: On Shames' Experimenter Expectancy Paradox, D. PRIMEAUX 634
Discussion: On the Empirical Content of Determinism, D. DIEKS . . . 124
Discussion: Progress Requires Invariance, CARL R. KORDIG 141
Discussion: Rescher on the Goodman Paradox, B. L. BUNCH 119
Discussion: Turing Machine Arguments, R. J. NELSON 630
Evolution, Population Thinking, and Essentialism, ELLIOT SOBER . . . 350
Fixing the Reference of Theoretical Terms, ROBERT NOLA 505
Independent Testability: The Michelson-Morley and Kennedy-Thorndike Experiments, RONALD LAYMON 1
Induction and Reasoning to the Best Explanation, R. A. FUMERTON 589
Is There a Dutch Book Argument for Probability Kinematics?, BRAD ARMENDT 583
Justification and the Psychology of Human Reasoning, STEPHEN P. STICH AND RICHARD E. NISBETT 188
Justification, Discovery, and the Naturalizing of Epistemology, HARVEY SIEGEL 297
Lawlikeness and the End of Science, C. Z. ELGIN 56
On Luce's Theory of Meaningfulness, FRED S. ROBERTS 424
Operant Conditioning and Teleology, DOUGLAS V. PORPORA 568
Optimal-Design Models and the Strategy of Model Building in Evolutionary Biology, JOHN BEATTY 532
Probability Kinematics and Representation of Belief Change, ZOLTAN DOMOTOR 384
Probability, Vague Statements and Fuzzy Sets, A. I. DALE 38
Rational Belief and Probability Kinematics, BAS VAN FRAASSEN . . . 165
Russell, Negative Facts, and Ontology, L. NATHAN OAKLANDER AND SILVANO MIRACCHI 434
Some Problems for "Progress and its Problems", H. KRIPS 601
Strange Expectations, IAN HACKING 562
The Model-Theoretic Argument against Realism, G. H. MERRILL 69
Theory Choice and Resistance to

Change, ANDREW LUGG 227
The Role of Normative Assumptions in Historical Explanation, GREGORY CURRIE 456
The Structure of Physical Explanation, JOHN FORGE 203
The Trouble with Homunculus Theories, JOSEPH MARGOLIS . . . 244
Uniqueness and Historical Laws, EVAN FALES 260
Values, Health and Medicine, WILLIAM K. GOOSENS 100
Why Gibbs Phase Averages Work—The Role of Ergodic Theory, DAVID B. MALAMENT AND SANDY L. ZABELL 339
Why is Mechanics Based on Acceleration?, CARL G. ADLER 146

AUTHORS

ADLER, CARL G. Why is Mechanics Based on Acceleration? 146
AGASSI, JOSEPH. Between Science and Technology 82
ARMENDT, BRAD. Is There a Dutch Book Argument for Probability Kinematics? 583
BEATTY, JOHN. Optimal-Design Models and the Strategy of Model Building in Evolutionary Biology 532
BUNCH, B. L. Rescher on the Goodman Paradox (Discussion) . . . 119
BUNZL, MARTIN. Comment on "Health as a Theoretical Concept" (Discussion) 116
COOKE, ROGER. A Trivialization of Nagel's Definition of Explanation for Statistical Laws (Discussion). 644
CUPPLES, BRIAN. Four Types of Explanation (Discussion) 626
CURRIE, GREGORY. The Role of Normative Assumptions in Historical Explanation 456
DALE, A. I. Probability, Vague Statements and Fuzzy Sets 38
DIEKS, D. On the Empirical Content of Determinism (Discussion) . . 124
DOMOTOR, ZOLTAN. Probability Kinematics and Representation of Belief Change 384
ELGIN, C. Z. Lawlikeness and the End of Science 56
FALES, EVAN. Uniqueness and Historical Laws 260
FALMAGNE, JEAN-CLAUDE. A Probabilistic Theory of Extensive Measurement 277
FORGE, JOHN. The Structure of Physical Explanation 203
FUMERTON, R. A. Induction and Reasoning to the Best Explanation 589
GARBER, DANIEL. Field and Jeffrey Conditionalization (Discussion) 142
GARDENFORS, PETER. A Pragmatic Approach to Explanations 404
GLYMOUR, CLARK. Hypothetico-Deductivism is Hopeless (Discussion) 322
GOOSENS, WILLIAM K. Values, Health and Medicine 100
HACKING, IAN. Strange Expectations 562
HESSE, MARY. Minogue on Intensional Reference (Discussion) 617
KITCHER, PATRICIA. How to Reduce a Functional Psychology? (Discussion) 134
KORDIG, CARL R. Progress Requires Invariance (Discussion) 141
KRIPS, H. Some Problems for "Progress and Its Problems" . . 601
KUKLA, A. Determinism and Predictability: Reply to Dieks (Discussion) 131
LAYMON, RONALD. Independent Testability: The Michelson-Morley and Kennedy-Thorndike Experiments 1
LUGG, ANDREW. Theory Choice and Resistance to Change 227
MALAMENT, DAVID B. (WITH SANDY L. ZABELL) Why Gibbs Phase Averages Work—The Role of Ergodic Theory 339
MARGOLIS, JOSEPH. The Trouble with Homunculus Theories 244

MERRILL, G. H. The Model-Theoretic Argument Against Realism . . . 69
MIRACCHI, SILVANO (WITH NATHAN OAKLANDER) Russell, Negative Facts and Ontology 434
NELSON, R. J. Turing Machine Arguments (Discussion) 630
NISBETT, RICHARD E. (WITH STEPHEN P. STICH) Justification and the Psychology of Human Reasoning 188
NOLA, ROBERT. Fixing the Reference of Theoretical Terms 505
OAKLANDER, L. NATHAN (WITH SILVANO MIRACCHI) Russell, Negative Facts, and Ontology 434
PRIMEAUX, D. On Shames' Experimenter Expectancy Paradox (Discussion) 634
PORPORA, DOUGLAS V. Operant Conditioning and Teleology 568
ROBERTS, FRED S. On Luce's Theory of Meaningfulness 424
ROZEBOOM, WILLIAM W. Nicod's Criterion: Subtler Than You Think (Discussion) 638
SIEGEL, HARVEY. Justification, Discovery and the Naturalizing of Epistemology 297
SOBER, ELLIOT. Evolution, Population Thinking, and Essentialism . . . 350
STICH, STEPHEN P. (WITH RICHARD E. NISBETT) Justification and the Psychology of Human Reasoning 188
TOWNSEND, BURKE. Jackson and Pargetter on Distant Simultaneity (Discussion) 646
VAN FRAASSEN, BAS. Rational Belief and Probability Kinematics . . . 165
ZABELL, SANDY L. (WITH DAVID B. MALAMENT) Why Gibbs Phase Averages Work—The Role of Ergodic Theory 339
ZARET, DAVID. A Limited Conventionalist Critique of Newtonian Space-Time 474
